

Serial No.  
Filed:

**REMARKS**

The present amendments are made to direct the subject matter of the present application to that which was canceled in the parent application. In the present claims, the R<sup>1</sup> substituent of the compounds of formula I is lower alkyl or lower alkyl substituted by cycloalkyl, aryl, substituted aryl, heteroaryl or substituted heteroaryl. Typographical errors are corrected in claim 1 to recite "compound" and in claims 8, 9 and 11 by adding a space between "claim" and "6".

Respectfully submitted,
